Comment: How can you continue to let this unthinkable tragedy go on? How long can you deny what is happening? The primary job of the US government, and of course the EPA, is to keep Americans safe; yet you are allowing MANY innocent citizens to get sick and/or die from your mistakes without taking any responsibility. This is unacceptable in all ways. Buy these people out, pay for their medical bills and let them HOPEFULLY escape before more of them succumb to your acceptable toxic levels.
